## PROFILE

---

Fullstack Developer with expertise in MERN stack, Next.js, and TypeScript, passionate about building scalable, user-friendly applications. Skilled in frontend, backend, and DevOps practices, with hands-on experience in JWT authentication, database design, and deployment. Constantly exploring AI integration and modern tools to deliver smarter, future-ready solutions

## EDUCATION

---

**Global Institute of Technology, Jaipur,** 2022 – 2026  
*B.Tech Computer Science & Engineering*

**Jamia Polytechnic, Akkalkuwa,** 2019 – 2022  
*Diploma Computer Science & Engineering*

## PROJECTS

---

### InnerLight – Mental Wellness Platform 🔗

Developed a fullstack mental wellness application that allows users to **log and visualize** their mood trends over the week, interact with an **AI-powered chat assistant** for supportive conversations, and maintain a **personal journal**. The platform also provides a **resources hub** with curated self-growth books, while being built on a modular, scalable architecture for future feature expansion

### DevSnip 🔗

DevSnip is a **personal code snippet manager** built with the **MERN stack**. It allows developers to save, search, and manage reusable code snippets efficiently. Focused on clean UI and fast performance, it streamlines daily development workflows with filtering and snippet organization features

### SmartCall 🔗

SmartCall is a **real-time video conferencing platform** that allows users to create and join calls instantly. Built with React, Node.js, and WebRTC, it offers seamless video and audio communication, screen sharing, and scheduling features, making it perfect for both professional and casual use

### Portfolio 🔗

My personal portfolio **showcases my skills, projects, and experiences in web development**. Built with React, Vite, and plain CSS, it features a clean, responsive design that works smoothly across devices, offering an interactive and minimal browsing experience
